

Coolant Pipes Manufacturer - **MANLON**

MANLON - Flexible Coolant Pipe & Tubes

Plastic flexible coolant pipe are rigid in nature but most convenient and flexible to work with. Our **MANLON** flexible machine coolant pipe / flexible coolant tubes are manufactured from engineering thermoplastic- Nylon material. These plastic coolant hose has high impact strength and are adjustable at any length. They are available in different sizes - diameter and length.

Flexible Machine Coolant Pipe : Features

- Plastic flexible cooling pipe-Resistant to abrasion and vibration
- Flexible coolant hose-Pressure losses are low because of smooth internal surface.
- Adjustable plastic coolant tube-Low weight as compared to metal hoses.
